The flag of Liberty,
Whose thory and renown
Are spreed-o'er land and sea—
And would ye strike it down:

Ma imen, suspend your will; Cut not its heaven born ties: Our country's ensign still, treaked with celestial dyes! On ocean's wave and heath, In battle and in blast, Our fathers cheered beneath,

Or nailed it to the mast. A tear for those who fell;— For those who lived, repown, It caught their last farewell-Oh, do not hew it down!

Our heart strings 'round thee cling, And mem'ries o'er thee crowd; On field and deck thy wing Has been a freeman's shroud! Old flag, the storm still brave; And traitor's leave the spot; While we've an arm to save, Your rage shall harm it not!

MR. EDITOR:-The apple tree we opine, will yet be a source of immense wealth to our State. It is perhaps bad policy to set out many apple trees upon our level lands, upon our tillage or mowing lands Sides of hills or even hill tops are excellent for raising this kind of fruit. Perhaps more attention has been paid to engrafting than is advisable. The farmer who grows apples largely will have enough of all kinds of fruit, so that the may not be under necessity to seek for choice varieties.

To spend too much time in pruning the frees is we think, an unwise course. We should remove the dead limbs and in some cases perhalis use a little cement when large limbs nave been cut off, to protect the tree from injury. It is well to thin out the tops of the trees so that a free passage may be had when gathering off the fruit. The easiest method that we have found is to use the foot. In this way a very large tree may be gathered in a

From Illinois, the prairie garden of the United States, reports are that the crops never looked better, the granaries are full of the old crop, and if the ensuing harvest proves what is expected, the farmers will come out all right, as the crop will be sold only for gold or silver currency. Gen:lemen: Your note of the 15th instant has been received, saying that you had heard that I had been benefited by the use of Wood's Hair Restorative, and requesting my certificate of the fact if I had no objection to give it.

I award it to you cheerfully, because I think it due. My age is about 50 years; the color of my hair auburn, and inclined to curl. Some five or six years since it began to turn gray, and the scale six years since it began to turn gray, and the scalp on the crown of my head to lose its sensibility and dandruff to form upon it. Each of these disagree-abilities increased with time, and about 4 months since a fourth was added to them, by hair falling off the top of my head and threatening to make me

off the top of my head and threatening to make me bald.

In this unpleasant predicament I was induced to try Wood's Hair Restorative, mainly to arrest the falling off of my hair, for I had really no expectation that gray hair could ever be restored to its original color except from dyes. I was, however, greatly surprised to find, after the use of two bot tles only, that not only was the falling off arrested, but the color was restored to the gray hairs and sensibility to the scalp, and dandruff crased to form on my head, very much to the gratification of my wife, at whose solicitation I was induced to try it. For this, among the many obligations I owe to her sex, I strongly recommend all husbands who value the admiration of their wives to profit by my example, and use it if growing gray or getting bald.

Very respectfully, Ben. A. LAVENDER.

PERUSE The following statement and then judge of its facts for yourself

ABRAM COLB, of Brooklyn, N. Y., a well known citizen there, had suffered from Dyspepsia for some years, without permanent relief, until he tried AYER'S FILLS, which taken according to the directions for this complaint, restored him to health in a few weeks. After an interval of some months he has had no return of his complaint.

GEO. W. CROSS, of Harmony, Texas, had an eruption on his neck, shoulders, back and leg, which covered about one third of his body. It kept the parts affected covered with a scab, and being often a raw sore, was of course very troublesome and distressing. It so much impaired his health as to unfit him for business and kept him in constant suffering. All medical aid failed him until he took AYER'S COMPOUND EXTRACT MARSA-PARILLA, which cured him. His akin still shows some scars from the ulceration, but it is otherwise as clear as an infants.

JOHN H. SHOOK, Esq., an eminent lawyer of some scars from the ulceration, but it is otherwise as clear as an infants.

JOHN H. SHOOK, Esq., an eminent lawyer of Richmond, Va., took a cold which settled on his lungs. A severe pain set in on the left side, with a bad cough, which was soon followed by the unmistakable symptoms of consumption. When reduced very low he commenced taking AYER'S CHERRY PECTORAL, which soon stopped the cough and completely cured him.
